When I first joined this session of unbox english I had always struggled with writing an essay with proper tense and using new vocabulary. Joining this session gave me the confidence to write essays more better than I used to write using the easy language without using the high-quality words. When I was in unbox english writing essays became a piece of cake!

There is no better place for your children to learn and grasp English speaking skills. unbox English has been a perfect solution for my child and I have seen so much improvement in his English it is remarkable. Aparna Sharma Mam has been a true Angel in my child's life and we cannot thank her enough for shaping our child she has become the biggest role model for my child and he simply adores her. We have been so fortunate to have a honest place like bambino's come our way. Their unbox English is truly a remarkable program. A must for every parent and children. Their approach to teaching English is totally different and specially in a country like india where English is more of a life skill then a language it's imperative we invest in this lifelong skill.

An amazing platform for children to learn a better way of communication right from the beginning. The engaging content makes the learning process much more interesting and fun for kids. I highly recommend this! Excellent platform where kids can explore extra curricular activities and build their leadership skills.
Had an amazing experience :)

TESTIMONIALS FROM OUR STUDENTS

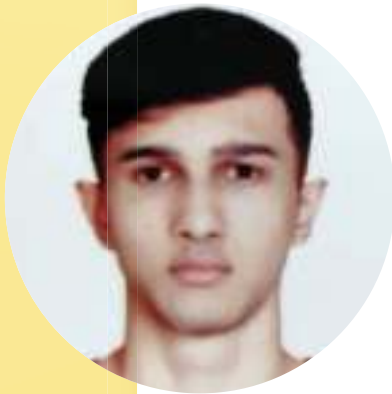

- Young Creative Writers Program (Unbox English)

NAVMI S

Student of University of Pennsylvania,
Philadelphia, USA

I was a student of Young Creative Writers Program (YCW) some time back. The grammar program helped me strengthen my foundations in English in a way that allowed me to put my best foot forward in my **SAT** exam prep. The creative writing modules also helped me lay a strong groundwork for my writing skills which helped me immensely when I was writing my college essays. The essays I wrote were also a major reason for my acceptance into **University of Pennsylvania, an Ivy League college**, which has given me the cutting edge in my life.

The Young Creative Writers course helped me build the vast vocabulary I have today. Their creative writing techniques make writing essays and stories transition from the process of reaching word limits into crossing imagination limits. I had attended these classes and I have seen the benefits of this course throughout all the English tests I took, including the **IELTS** exam I just took that helped me in my **college admission** process for my undergraduate studies in Sydney.

Hands down one of the most fun learning experiences ever!
